**August 12 - 18  
in Döbeln (Germany)**

# **INTERNATIONAL ANTI-NUCLEAR SUMMER CAMP 2019**

Donations:

account holder: Greenkids e.V.

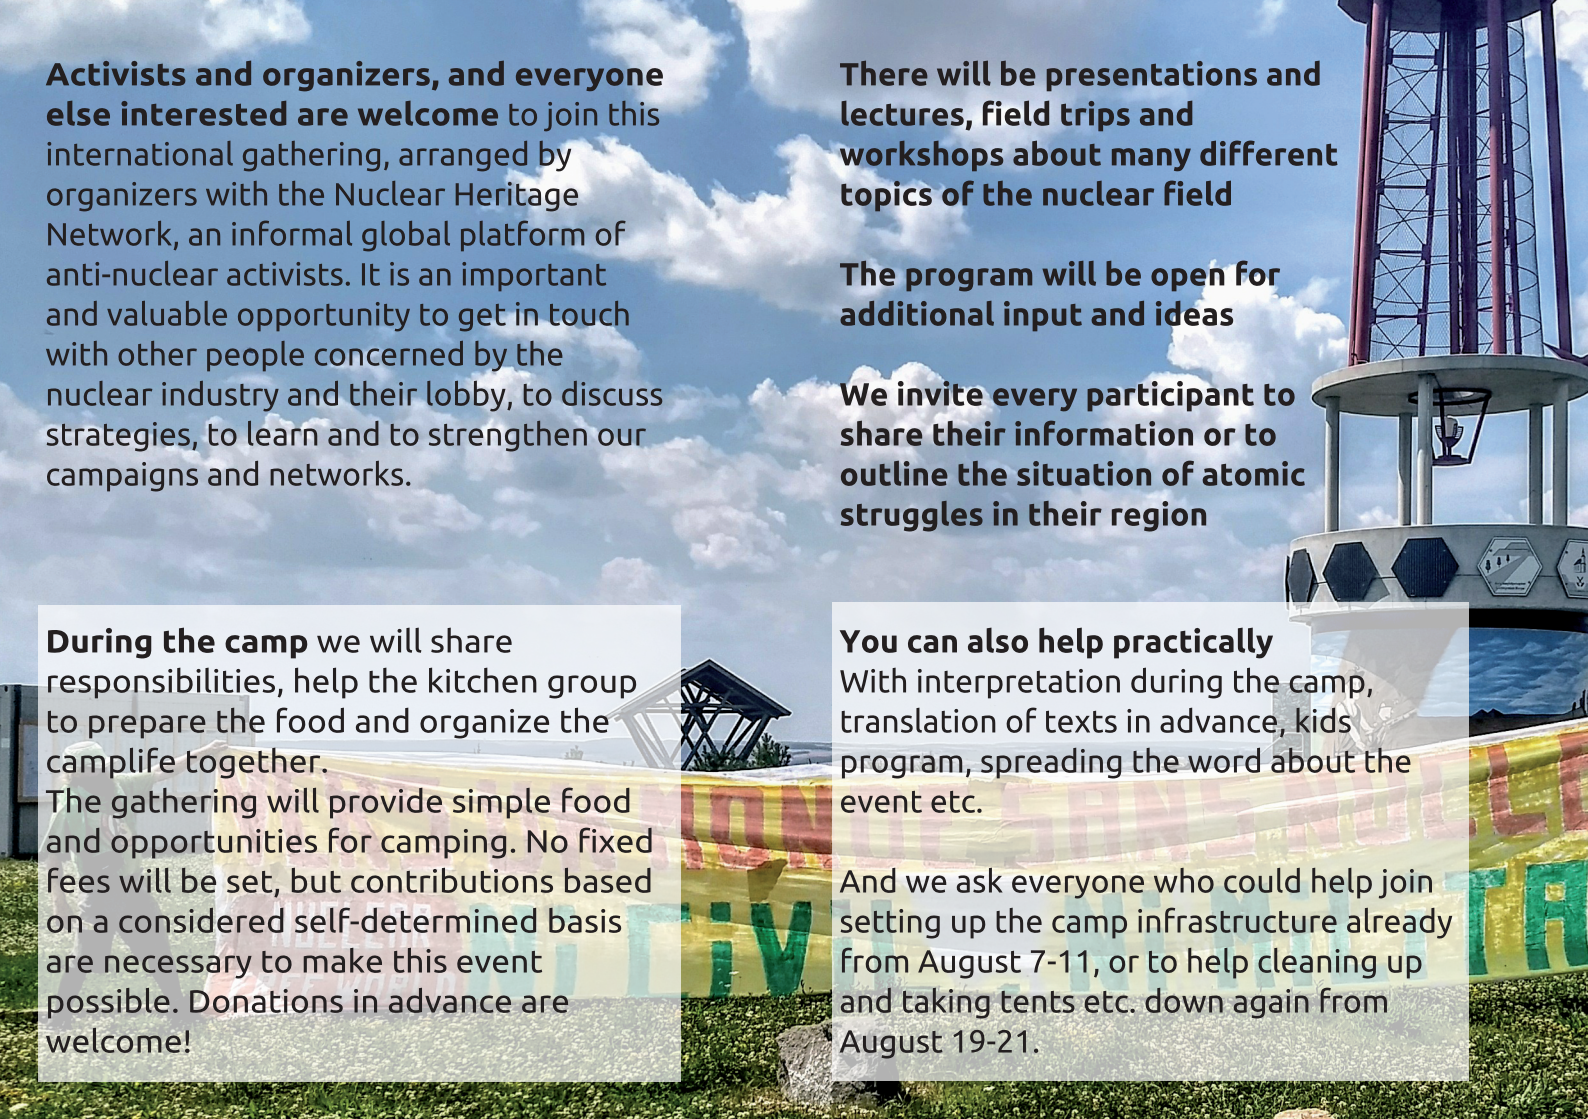

BIC: GENO DE M 1 GLS

IBAN: DE75 4306 0967 1101 7406 00

purpose: "camp 2019"

One week of anti-nuclear exchange, networking, skillsharing and other activities!

**Activists and organizers, and everyone else interested are welcome** to join this international gathering, arranged by organizers with the Nuclear Heritage Network, an informal global platform of anti-nuclear activists. It is an important and valuable opportunity to get in touch with other people concerned by the nuclear industry and their lobby, to discuss strategies, to learn and to strengthen our campaigns and networks.

**During the camp** we will share responsibilities, help the kitchen group to prepare the food and organize the camplife together. The gathering will provide simple food and opportunities for camping. No fixed fees will be set, but contributions based on a considered self-determined basis are necessary to make this event possible. Donations in advance are welcome!

**There will be presentations and lectures, field trips and workshops about many different topics of the nuclear field**

**The program will be open for additional input and ideas**

**We invite every participant to share their information or to outline the situation of atomic struggles in their region**

**You can also help practically**

With interpretation during the camp, translation of texts in advance, kids program, spreading the word about the event etc.

And we ask everyone who could help join setting up the camp infrastructure already from August 7-11, or to help cleaning up and taking tents etc. down again from August 19-21.
