Big Blockade,  
UK, October  
2008

Anti-nuclear  
Network  
Meeting, Bure  
(F), August  
2008

# Short History Of The Nuclear Heritage Network

- started in 2006 as a local youth initiative
  - research project about the Final Disposal Site in Morsleben (D)
  - local actions in Magdeburg (D)
- turned into a transnational youth initiative in 2007
  - excursion to Finland in February 2007
  - participating in the German network of local initiatives against final disposal sites
    - establishing contacts in further countries: Belarus, Russia, France

- 2008: expansion to Nuclear Heritage Network
  - making contacts in **further countries**: Austria, Australia, Hungary, United Kingdom, Canada
  - first **flyers** produced: German final disposal sites
  - **exhibition** about the final repository Morsleben produced in English language
  - network **meeting**, network **action**, taking part in **international actions** in Finland, Germany and UK

- 2009: international activities
  - making contacts in **further countries**: Belgium, Bulgaria, Latvia, Netherlands, Slovenia, Sweden, United States
  - new **flyers** produced: Swiss search for a final disposal site, French nuclear complex La Hague
  - **photo exhibition** about international anti-nuclear activities
  - **website extended**: Uranium mining page, Baltic Tour project page, Ranua Rescue project page, ...
  - network **meeting**, international **Ranua Rescue Action Day**, taking part in **international actions** in Finland, Germany and UK

- 2010: international activities
  - making contacts in **further countries**: Azerbaijan, China, Denmark, Italy, Poland, Lithuania
  - new **flyer** produced: Uranium – A Deadly Material (EN), Radioactive Baltic Sea
  - **photo exhibition** about the Baltic Sea Info Tour
  - **Website extended**: Baltic Map project page
  - network **meeting**, Baltic Sea Info Tour, taking part in **international actions** in Finland, Germany and UK

- 2011: international activities
  - making contacts in **further countries**: Czech Republic, Greece, Japan
  - new **flyer** produced: Uranium – A Deadly Material (RUS, FIN, D), Swiss search for a final disposal site (IT), French nuclear complex La Hague (D), Gorleben final repository (D), Morsleben final repository (D), Schacht Konrad final repository (D)
  - **NukeNews** newsletter system launched
  - **Fukushima disaster** alert
  - network meeting, Olkiluoto Blockade, international guests in Castor protests, conference in Vilnius, taking part in **international actions** in Germany

- 2012: international activities
  - making contacts in **further countries**: Portugal
  - **anti-nuclear action summer**: network meeting, Olkiluoto Blockade, anti-nuclear sailing trip; taking part in **international actions** in France and Poland
  - **Talvivaara mine spill** alert
- 2013: international activities
  - making contacts in **further countries**: Hongkong, Romania, Turkey, Ukraine
  - booklet „Atomic Policies in selected European Countries“, International Conference in Vienna, CASE PYHÄJOKI, International Network Office launched, ATOMIC BALTIC network/project started

- 2014: international activities
  - making contacts in **further countries**: Norway
  - conference in Prague, network meeting, atomic transports action camp, NukeNews mini-camp, German nuclear waste conference
  - solidarity campaign for prosecuted Russian friends
  - ATOMIC BALTIC photo exhibition & info events
- 2014 + X: *plans for further projects*: Fukushima folder, uranium exhibition, book „Atomic Threats Around The Baltic Sea“

# Basic Idea

- fight against the risks of nuclear power and the circumstances which allow some people to profit from a technique with no respect for other people
- no label or common ideology / positions
- open platform or space for information exchange and coordinating activities
- people who want to organize a project together can do it - but there is no pressure to decide everything together

# Ideas And Aims

- provide resources (money, infrastructure, prints)
- exchange information and support each other
- provide background information about nuclear issues in different countries & several languages
- connect activists and help with contacts to experts and speakers from different countries
- organize network meetings and common activities if wanted

# Activities

- workshops to promote the network at several camps and congresses
- setting up the international network Wiki page + email mailing list
- Setting up special country pages in the Wiki + Finnish, Russian and English NukeNews newsletters as well as the French-German bulletin
- organizing money for international work
