

# BALTIC SEA INFO TOUR 2010

international

**FEL PLATSER** har valts - **UTRED** (inlands-) **ALTERNATIVEN!**  
**ÖSTERSJÖN** är redan **RADIOAKTIV**: **INGET AVFALL DIT**

Oskarshamn i Fjärrmark har förtjänat goda utmärkelser för att ha tagit hand om farliga avfall?

05.56

Mittensjöns kust

The complex block contains a map of the Baltic Sea region. The map shows the coastline of the Baltic Sea, with several locations marked. A red triangle indicates a nuclear power plant at Oskarshamn. A blue triangle indicates a waste management site at Fjärrmark. A speech bubble points to the Baltic Sea with the text "Inget avfall hit!". The text above the map reads "FEL PLATSER har valts - UTRED (inlands-) ALTERNATIVEN! ÖSTERSJÖN är redan RADIOAKTIV: INGET AVFALL DIT". Below the map, there is a question: "Oskarshamn i Fjärrmark har förtjänat goda utmärkelser för att ha tagit hand om farliga avfall?". At the bottom left, there is a date "05.56" and the text "Mittensjöns kust".

Participate in the Baltic Sea Info Tour! Travelling around the Baltic Sea in summer 2010 we will inform about the radioactive pollution of this sea, do some action, come in contact with local activists, give workshops and also enjoy having together this Info Tour. Join the project, help with the preparation and networking!
